

# AFRICAN MOBILITY MONTH

## Transforming urban mobility in Africa cities

17 September - 17 October 2021

We are **living in an urban age**, and as our **cities grow** we stand the risk of entrenching inequalities and exacerbating **climate and environmental crises**, if we continue with business as usual. The **urgent transformation of our mobility systems** has become ever **more pressing** for **creating equitable and sustainable urban environments** that also **contribute to achieving global development** and climate action agendas such as the Sustainable Development Goals and the Paris Agreement. **#AfricanMobilityMonth** aims to mobilise a strong collective effort and **build momentum for shifting mobility paradigms in African cities**.

*#AfricanMobilityMonth*, convened annually by ICLEI Africa and partners, brings together urban mobility actors, climate activists, community organisations, decision-makers and citizens who are passionate about developing mobility systems that sufficiently support the needs of all urban citizens while also reducing our cities' environmental impacts.

Join us in calling for ambitious and urgent action for advancing socially just sustainable mobility in African cities.  
It is our time to act.

### Here are 5 ways to get involved in #AfricaMobilityMonth:

**INSPIRE ACTION** by showing us how your city or other African cities are *#TransformingMobility*. Share images and videos on social media, using *#AfricanMobilityMonth*. Show us your cities' latest mobility developments and initiatives such as bike-sharing schemes, complete streets and bicycle lanes, electric mobility shifts, car-free streets, integrated spatial plans, community involvement, tactical urbanism, parklets, and more.

**ACCELERATE CHANGE** by mobilising information and sharing your reflections. Share important facts, figures, ideas or quotes from a report, research paper, case story, strategy or policy about mobility in African cities using *#AfricanMobilityMonth*

**STRENGTHEN NETWORKS** by participating in events, talks and discussions scheduled throughout the month, or host your own and share this with us to co-promote. These can be a webinar, an online conversation, an Instagram or Facebook live discussion, car-free day, a mobility challenge, car-pool to work days, community bike-rides and more. Visit the AfricanMobilityMonth website and follow us on Twitter and Instagram to stay updated.

**CELEBRATE THE CHANGE-MAKERS** pushing forward sustainable mobility in Africa. Tag any people, organisations or companies promoting road safety, cycling, low carbon mobility and more and use *#AfricanMobilityMonth*

**GALVANISE A COLLECTIVE EFFORT** by mobilising your networks to join the campaign. Use *#AfricanMobilityMonth* by sharing this 'How to get involved' campaign resource with them.
